

Who we are and what we do...

PROFESSIONAL HEALTH CARE CONSULTANTS, INC., also known as Professional Health Care Services, has been a family-owned Caregiving Registry, Placement and Referral Agency since 1995. We specialize in providing quality care to families needing assistance with their loved ones at home, in the hospital or any residential setting.

REGISTRY

We are committed to finding the perfect nurse or caregiver to fit each individual's needs. We do this through a careful selection process of matching the personalities of our caregivers to each and every client.

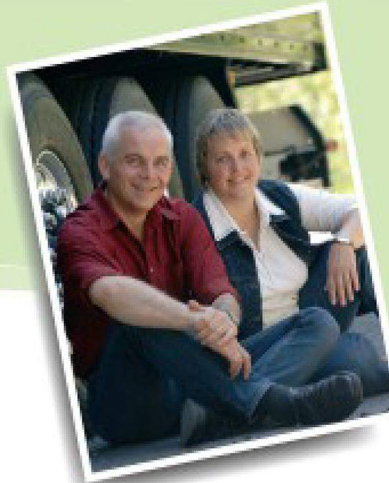

PLACEMENT

We are dedicated to helping families locate residential care facilities, retirement homes and assisted living homes that fit their loved one's needs. All of the facilities recommended by us must meet our standards and core values beyond the basic licensing requirements.

REFERRALS

We are also a community resource business, functioning as a **Caregiver Referral Network**, that assists families and their loved ones in finding affordable care options to meet their needs and financial budget.

"We help people maintain a better quality of life while enjoying privacy and dignity in the comfort of their own home."

"In Partnership with other Home Health and Hospice Medicare Accredited Agencies"
